

Introducing new "Moonscape" nonstick coating, an eye-catching version of Whitford's Eclipse®

Eclipse is the extremely durable, wear-resistant, internally reinforced nonstick coating that's won consumers' enthusiastic approval on many famous brands of cookware around the world.

Now, as a natural extension of Eclipse, comes "Moonscape", inspired by the mottled surface of the moon. Eclipse Moonscape is designed for high-quality cookware that is subjected to rough use in the kitchen. It meets all regulatory demands of the FDA and EU for food-contact coatings.

New Moonscape comes in four attractive colors: Aquascape, Copperscape, Silverscape and Greyscale. For more information, or to request a sample, please contact your Whitford representative or Whitford directly (sales@whitfordww.com).

How does new Moonscape actually perform?

Whitford Test	Test #	Moonscape
Dry-film Thickness	114-B	Extra thick
Burned Milk	181-A	Highest
Dry-Egg Release	199-H	Highest
Adhesion	132-C	Best
Adhesion Post Corrosion	132-P	Best
Corrosion	165-C	Best
LGA Wear	138-L	Good
Reciprocating Abrasion	135-G	Outstanding
Scratch Adhesion	137-C	No wear

Greyscape

Four sparkling Moonscape colors to choose...

Eclipse Moonscape has a rough texture, like the surface of the moon. Yet it has all the outstanding benefits that have made standard Eclipse such a success.

1. The ground coat contains a carefully chosen combination of resins and unusually hard materials, permitting a far higher percentage of special reinforcing elements.

2. The midcoat, actually a primer used in other Whitford reinforced systems, also con-

tains the special reinforcing elements.

3. The textured topcoat is rich in fluoropolymers, and is dedicated to “release” (the non-stick characteristic).

Eclipse Moonscape comes in four handsome colors: Aquascape, Silverscape, Copperscape and Greyscape.
